

How the Bedrock System enabled  
Myriad Engineering to create

# PROCESS CLARITY

FINANCE PROCESSES

Critical financial  
processes have  
been documented  
in notebook form  
but **detailed**  
**knowledge still**  
**exists in peoples**  
**heads**

SITUATION

“We have **detailed**  
**clarity of our financial**  
**processes.** They are  
now incorporated  
into our **single source**  
**of truth** and can be  
activated as we need  
them”

RESULT

- Fiona Wilson, Myriad Engineering, Director

# 100%

Increase in confidence the processes  
can be followed independently

*"I feel super confident that it is so well  
documented that a new person would  
require minimal induction time"*

IMPACT
